

# Civil Engineering

**Course Name**

Buildings & Civils - Geotechnical - Introduction to Slope Stability

**Course Description**

This eLearning forms part of the Geotechnics Training Programme. The aim of this module is to introduce the concept of slope stability, what influences the stability of a slope and how to recognise slope movement. It is of relevance to Network Rail staff and contractors alike who work on site and may be the first to spot signs of slope movement.

**Audience**

**Duration:** 0.25 Day(s) **Class Size:**
