

Civil Engineering

Course Name

Buildings & Civils - Geotechnical - Rock Slope Examinations: Geotechnical Data

Course Description

The Geotechnical Data module is the third of four pre-learning modules to the face to face Rock Slope Hazard Index course forming part of the Geotechnics Training Programme, looking at the rock slope examination process as detailed in NR/L3/CIV/065/Mod3 and NR/GN/CIV/065/Mod3. This module covers the recording of geotechnical data i.e., rock material data, rock discontinuity data, potential failure modes, frequencies, and sizes, and groundwater and surface water observations. It provides foundational knowledge upon which fieldwork will build.

Audience

Rock Slope Examiners only who are attending the Rock Slope Hazard Index training course.

Duration: 0.25 Day(s) **Class Size:**
