

Signal Engineering

Course Name

ETCS System Fundamentals 2 - Interlocking Principles

Course Description

System Fundamentals 2 builds on the information provided in the System Fundamentals 1 suite of learning, covering some of the topics already addressed in more detail, as well as providing information geared to supporting project delivery teams. This course will be useful to a range of technical roles working on an ETCS scheme but in particular Project Engineers and Test and Commissioning engineers. The third section of the course, Interlocking Principles, looks at the ETCS Interlocking Principles on the Paddington to Heathrow project.

Audience

Scheme Designers Project Engineers Test and Commissioning Engineers Other technical roles working on ETCS schemes
