Signal Engineering

Course Name

Track Circuits VT1SP

Course Description

This course is designed to train persons who are responsible for undertaking first line faulting and maintenance of VT1(SP) track circuits as part of their duties on Network Rail Infrastructure. It is designed to develop a person's knowledge, understanding and skills and is therefore particularly suited to persons required to prove their capability in these areas.

Audience

This course is designed to train persons who are responsible for undertaking first line faulting and maintenance of VT1(SP) track circuits as part of their duties on Network Rail Infrastructure.

Duration: 2 Day(s) **Class Size:** 6

Competence Name Awarded

Undertake Corrective and Preventative Maintenance of Track Circuits VT1(SP)

Competence Awarded

Sig 05.12

Course Code

Sig 05.12

Prerequisite Name

Track Circuits; Signalling Power Supplies; Sig 14 (Signalling Cables)

Prerequisite Short Code

Sig 05; Sig 13; Sig 14

Skills Assessment Scheme Regime

4

Course Type

Prerequisite Qualifications - Mandatory Prerequisite - Face to Face
