Signal Engineering

Course Name

Working on Operational Signalling Equipment

Course Description

Provides training on the disconnection and reconnection of signalling equipment when maintenance, faulting, repairing or testing work is being undertaken.

Audience

Signalling Technicians responsible for the maintenance, faulting repairing or testing of the signal engineering equipment with a minimum of 6 months workplace experience in signal maintenance / faulting / installation or testing environment.

Duration: 1 Day(s) **Class Size:** 6

Competence Name Awarded

Take and relinquish responsibility for Signalling equipment. Implement and monitor safe working systems for signal engineering maintenance and renewal activities.

Competence Awarded

Sig 25; Sig 26

Course Code

Sig 25; Sig 26

Prerequisite Name

Provides training on the disconnection and reconnection of signalling equipment when maintenance, faulting, repairing or testing work is being undertaken. AUndertake preventative maintenance of Track Circuits Undertake preventative maintenance of Electrical Signals and AWS Undertake preventative maintenance of Signalling Power Supplies Undertake preventative maintenance of Signalling Cables

Prerequisite Short Code

Sig 01; Sig 02; Sig 03; Sig 04

Skills Assessment Scheme Regime

5

Course Type

Face to Face
