Track Engineering

Course Name

Basic Tree Survey and Inspection

Course Description

This one-day course aims to provide specific tree survey and inspection training at a basic level for contractors, highway engineers, tree wardens, grounds maintenance staff, rangers and other persons of a non-arboricultural background or with limited arboricultural knowledge, to allow them to identify obvious defects from ground level and then to report their finding to a line manager.

Audience

Any persons employed as local authority highway inspectors, forestry, woodland or arboricultural employees, estate or park rangers, farmers and other landowners or their employees who may have a responsibility for trees in the course of their work. Additionally, this course may be useful for those who work with trees in a voluntary capacity.

Duration: 1 Day(s) **Class Size:** 14
