

Track Engineering

Course Name

Undertake 053 Inspections

Course Description

This course is a two-part event. Delegates must enrol in the computer-based pre-reading on Oracle first, called 'Undertake 053 Inspections Prequalifier'. This will take approximately 30 minutes to complete and can be downloaded if required. Once they have done this, they can then enrol in the 'Undertake 053 Inspections' face-to-face training event. These are designed to develop delegates who are responsible for Undertaking 053 Inspections as part of their duties on Network Rail Infrastructure. This requires that the inspections and subsequent actions detailed in the standard NR/L2/TRK/053 Issue 8 are undertaken correctly and by competent persons.

Audience

Suited to persons required to prove their capability in the area of ensuring that all facing switches are managed correctly to eliminate the known derailment risks. It would be desirable for delegates to have completed the Track Patrolling Training. However, this is not essential, as all delegates attending the course will be required to have completed the course pre-read.

Duration: 2 Day(s) **Class Size:** 6

Competence Name Awarded

Establish the operational condition of the Permanent Way by Detailed Inspection.053 Inspection.

Competence Awarded

Tr07.01

Course Code

Tr07.01

Prerequisite Name

Personal Track Safety

Prerequisite Short Code

PTS

Skills Assessment Scheme Regime

4

Course Type

Face to Face - Elearning
