

Elearning

Course Name

Security on the Railway

Course Description

This mandatory training is designed to promote security awareness. It gives you an overview of security issues and how to protect our railway. It centres on your everyday practices and gives you an opportunity to stop, consider and ask yourself, are you behaving safely and securely, at home, at work, online and offline. Throughout the course you will be directed to relevant policies and standards that as a Network Rail employee or contractor you must comply with. Once you have completed this training course you will gain the Security on the Railway competence.

Audience

All Network rail staff and contractors.

Duration: 0.02 Day(s) **Class Size:**
