

Signal Engineering

Course Name

Traction Return Systems

Course Description

This training course is designed to provide delegates with an introduction to Traction Return Systems and the knowledge of how to install, maintain and diagnose faults on Impedance Bonds.

Audience

This training course is designed to provide delegates with an introduction to Traction Return Systems and the knowledge of how to install, maintain and diagnose faults on impedance bonds.

Duration: 0.25 Day(s) **Class Size:**

Competence Name Awarded

Traction Return Systems

Competence Awarded

Sig 63

Course Code

Sig 63

Prerequisite Name

Work safely on Signalling Power Supplies. Basic Electrical Safety for Signal Engineering Undertake corrective and preventative maintenance of Track Circuits

Prerequisite Short Code

Sig 42.01, Sig 05

Skills Assessment Scheme Regime**Course Type**

Elearning

Download Date: 20/5/2024
