

Infrastructure & Engineering

Course Name

City & Guilds 2391-50 Initial Verification work on newly installed installations

Course Description

The City & Guilds (C&G) 2394 has now been amended to C&G 2391-50. Any delegates wishing to attend this course ideally would have completed the C&G 2382 (17th Edition) prior to July 2018 or the C&G (18th Edition) from July 2018 onwards, if not, completed any of the C&G 2382 courses although, though this is not a mandatory entry requirement. Ideally the delegate will be electrically aware/or working in a similar environment. This qualification helps you to develop the knowledge and practical skills required to professionally install and carry out initial verification and testing on electrical installations.

Audience

This award is ideal for qualified electricians wishing to update their knowledge of electrical installation techniques. Level 3 is ideal if you are a qualified electrician and have a great deal of technical skills and knowledge. You work with minimum supervision and have a good record of safety, fault correction and ensuring work meets the required standard. You want to update your knowledge of techniques and legislation.

Duration: 5 Day(s) **Class Size:** 6
