

Lineside Management

Course Name

Drainage & Lineside - Drainage Tactical Evaluation Level 2

Course Description

This face-to-face training course is designed to enhance knowledge of drainage tactical evaluation. Throughout the course, participants will learn about the purpose of tactical evaluation, common triggers for tactical evaluation, and how to manage risk as outlined in the Network Rail standards. Participants will also understand the decision-making process and the possible outcomes. Effective communication skills are crucial in conducting tactical evaluation, and this course will demonstrate how to use them effectively. Finally, participants will learn how to tactically evaluate data sets, providing them with the skills and knowledge needed to make informed decisions in high-pressure situations. Recommended pre-learning for this course: Drainage & Lineside - Drainage Inspection and Maintenance Level 1. It is also recommended that delegates familiarise themselves with the following tools before attending this training course: - StrEAMS, ARET, Geo-RiNM, Ellipse, Fault Management System. These systems will be referenced extensively throughout the course and will form part of the final practical assessment.

Audience

Individuals responsible for tactical and strategic evaluation of drainage systems, including applying the Water Management Strategy and ensuring compliance with Network Rail Standards.

Duration: 2 Day(s) **Class Size:** 8
