

Lineside Management

Course Name

Drainage & Lineside - Drainage Tactical & Strategic Evaluation Level 1

Course Description

The e-learning course provides participants with a comprehensive understanding of the steps involved in practicing drainage tactical and strategic evaluation. Participants will learn to identify the key stages of the Drainage Lifecycle and recall the relevant Network Rail Standards for evaluation. The course also covers the Water Management Strategy, including sustainable development goals, social sensitivities, and environmental threats. Participants will gain knowledge of the methods for conducting strategic and tactical evaluation. By completing this course, participants will have the skills and knowledge to effectively evaluate drainage systems and apply the appropriate strategies in line with Network Rail Standards. Upon completion of this course and successfully passing the assessment, Level 1 Professional Competence will be awarded.

Recommended pre-learning for this course: Drainage & Lineside - Drainage Inspection and Maintenance Level 1
