Lineside Management

Course Name

Drainage & Lineside - Vegetation Rapid Response Level 1 & 2

Course Description

This e-learning course focuses on vegetation and tree rapid response, covering the key steps, on-site actions, decision-making processes, biosecurity considerations, success criteria, and dangers related to windblown trees. Participants will recall relevant Network Rail Standards, learn rapid response protocols, understand on-site procedures, and know how to address biosecurity issues. By completing this course, participants will gain an awareness of the knowledge needed to effectively respond to vegetation and tree emergencies, prioritise safety, and follow appropriate protocols in accordance with Network Rail Standards. Upon completion of this course and successfully passing the assessment, Level 1 and 2 Professional Competence will be awarded.

Audience

Individuals responsible for responding to vegetation and tree-related emergencies, such as wind-blown trees, as well as those responsible for any follow up actions.

Duration: 0.25 Day(s) **Class Size:**
