

Lineside Management

Course Name

Drainage & Lineside - Vegetation Tactical & Strategic Evaluation Level 1

Course Description

This e-learning course covers the vegetation and tree management lifecycle, the process and technology used in evaluation, tree and vegetation species types and habitats, reasons for deterioration/failure, and priorities of the Environment & Sustainability Strategy. Participants will learn about relevant Network Rail Standards, the difference between strategic and tactical evaluation, data sources, technology for data storage, and the role of different species and habitats. By completing this course, participants will gain an awareness of the knowledge needed to effectively manage vegetation and trees, conduct evaluations, and consider environmental sustainability in accordance with Network Rail guidelines. Upon completion of this course and successfully passing the assessment, Level 1 Professional Competence will be awarded. There is a recommended pre-learning for this course which is Drainage & Lineside - Vegetation & Tree Inspection & Maintenance Level 1.

Audience

Individuals responsible for the tactical and/or strategic evaluation of vegetation and trees, including those responsible for prioritising environmental sustainability in accordance with Network Rail guidelines.

Duration: 0.25 Day(s) **Class Size:**

Competence Name Awarded

Vegetation Tactical Evaluation Vegetation Strategic Evaluation

Competence Awarded
