Railway Operations

Course Name

SCADA TPCMS v3.2 to v5 Uplift (DC)

Course Description

This course aims to provide learners with the knowledge and understanding of the differences between TPCMS Version 3.2.3 and Version 5.0, and provide an opportunity to practise using the new features and functions of the system.

Your understanding and knowledge will be assessed by practical and verbal tasks throughout the sessions.

This training is for DC only and will cover:

- Benefits of TPCMS Version 5.0
- Navigation, Layout and Design Improvements
- Safety Enhancements
- Operations Monitors and HMI Changes
- Information and Status Panes – New Functions and Features
- Additional Functionality in TPCMS Version 5.0.

Audience

This course is only for existing Electrical Control Operators (ECO) who require upskilling from TPCMS version 3.2.3 to version 5.

Duration: 2 Day(s) **Class Size:** 2
