Railway Operations

Course Name

SCaN Virtual Training (See, Check & Notify)

Course Description

SCaN Virtual training has been developed by the CPNI and the National Project Servator Team at the City of London Police and aims to help organisations to maximise safety and security using their existing resources. SCaN highlights the important role staff play in disrupting the planning stages of a terrorist attack, protest or criminal activity, while having a positive impact on the customer experience.

Audience

NetworkRail Employees

Duration: 2 Hours Day(s) **Class Size:**
