Railway Operations

Course Name

Signal Engineering Principles for Operators

Course Description

This 5 day course is designed to build a more thorough and consistent knowledge amongst Network Rail's railway operators of signalling principles, signalling scheme plan development and understanding the operating aspects of the entire lifecycle of each project to make sure the correct operating outcomes are delivered. Delegates should be provided with access to the share point site: https://networkrail.sharepoint.com/sites/SignalEngineeringPrinciplesforOperators/SitePages/Homepage.aspx which gives them access to a community of mentors and additional optional pre and post course reading should they wish to read.

Audience

OMs, LOMs, POIS, POIM

Duration: 5 Day(s) **Class Size:** 12
