Railway Operations

Course Name

Weather Management - Managing the Impact of Weather

Course Description

This module gives an overview of Network Rail's vision, organisation and process for managing weather risk – who's involved at the national and Routes/Regions level, how they interface, what decisions they make and how they make them.

This learning is comprised of 5 sections:

Section 1: Introduction
Section 2: The System We Are Part Of
Section 3: A Dynamic System
Section 4: The System In Action
Section 5: Knowledge Check

Audience

This module is aimed at all weather-impacted roles. You may work within Network Rail in a central operational team or in Routes and Regions within operations, assets or maintenance. Or you may work externally within a regulatory body or one of Network Rail's partners.

Duration: 0.25 Day(s) **Class Size:**
