

Railway Operations

Course Name

Welcome to the Electrical Control Room

Course Description

This one-week programme will prepare you for your ECO course.

Over the next week, you'll learn about the key duties of an ECO and get an introduction to the equipment that you'll use. You'll become familiar with the technical infrastructure of the railway as well as the protocols we have for working safely together - are you ready?

This course is an important part of your ECO training course. It will provide you with all the information you need to get the most from your course and to begin your journey to becoming a competent ECO.

Audience

This solution is aimed at new to role Electrical Control Operators (ECOs).

Duration: 5 Day(s) **Class Size:**
