# Signal Engineering

**Course Name**

ETCS System Fundamentals 2 - Deployment and Approvals

**Course Description**

System Fundamentals 2 builds on the information provided in the System Fundamentals 1 suite of learning, covering some of the topics already addressed in more detail, as well as providing information geared to supporting project delivery teams.  This course will be useful to a range of technical roles working on an ETCS scheme but in particular Project Engineers and Test and Commissioning engineers.  The second section of the course, Deployment and Approvals, aims to help deployment projects understand the scope of their responsibilities when implementing digital railway technology.

**Audience**

Scheme Designers Project Engineers Test and Commissioning Engineers Other technical roles working on ETCS schemes

**Duration:** 1 Day(s) **Class Size:**
