

Railway Operations

Course Name

IST VDU Conversion Course

Course Description

An additional module for all signallers who will operate in a VDU signalled area. It provides the underpinning knowledge and practical experience (through a simulated environment) to carry out the role. the course includes theoretical and practical hands-on scenarios and assessments.

Audience

For fully qualified signallers who have no experience of, and are required to operate, VDU signalling equipment. Develops practical understanding of the functions of a VDU signalling system.
