

Lineside Management

Course Name

Drainage & Lineside - Vegetation Specification & Management Level 1

Course Description

This e-learning course covers key aspects of the vegetation lifecycle, the process for vegetation specification and management, managing biodiversity, and the agencies involved. Participants will learn about relevant Network Rail Standards, internal stakeholders, baseline studies, management intervention options, vegetation specifications, stages of management activities, and biodiversity considerations. By completing this course, participants will gain an awareness of the relevant knowledge to effectively manage vegetation, apply appropriate specifications, and consider biodiversity in line with Network Rail guidelines. Upon completion of this course and successfully passing the assessment, Level 1 Professional Competence will be awarded.

Audience

Individuals responsible for specifying and managing trees and vegetation, ensuring compliance with Network Rail Standards.

Duration: 0.25 Day(s) **Class Size:**

Competence Name Awarded

Vegetation Specification Vegetation and Tree Management

Competence Awarded
