

Lineside Management

Course Name

Drainage & Lineside - Drainage Design & Construction Level 1

Course Description

The e-learning course provides participants with a comprehensive knowledge on the drainage lifecycle, Network Rail Standards for design and construction, standard drainage components and criteria for their disposal, and generic safety principles. By completing this course, participants will gain a clear understanding of the drainage lifecycle, how to apply relevant standards, and ensure compliance with safety principles in drainage design and construction. Upon completion of this course and successfully passing the assessment, Level 1 Professional Competence will be awarded.

Recommended pre-learning for this course: Drainage & Lineside - Drainage Inspection and Maintenance Level 1

Audience

Individuals involved in drainage design and construction, including those responsible for planning, designing, and implementing drainage systems.

Duration: Day(s) **Class Size:**

Competence Name Awarded

Drainage Design Drainage Construction

Competence Awarded

DRA-D01, DRA-C01

Course Code

DRA-D01, DRA-C01

Prerequisite Name

Drainage & Lineside - Drainage Inspection & Maintenance Level 1

Prerequisite Short Code

MoD-F

Skills Assessment Scheme Regime**Course Type**

Elearning
