Civil Engineering

Course Name

Buildings & Civils - Mining - Introduction to Mining Awareness

Course Description

The Introduction to Mining Awareness module forms part of the Mining Training Programme and is the first part of two modules dedicated to the awareness of mining hazards around the railway. In this module you will cover lessons focussing on what is mined, some background on legacy mining and why this is important to Network Rail, and finally what mining hazards impact the railway and in what way.

Audience

- Mining Team - Route and Region Geotechnical Teams - Buildings & Civils Asset Management & Project Teams

Duration: 0.25 Day(s) **Class Size:**
