

# Rail Plant

**Course Name**

Safe use of Overhead Gantry Crane

**Course Description**

This course provides a route to competence for the safe use and operation of an Overhead Gantry Crane in the Depot environment. By the end of this course delegates will be able to: - Understand the legal requirements associated with use of Overhead Gantry Crane - Identify existing and predictable hazards in the surroundings or working conditions - Put together a simple lift plan for Overhead Gantry Crane - Be able to carry out pre-use checks to determine if the equipment is safe to use - Carry out Basic slinging activities as they pertain to the Overhead Gantry Crane - Accurately control the movement of crane and load

**Audience**

Current delegate audience is between 50 – 100 across several Depots. This demand is likely to be consistent year on year.

**Duration:** 1 Day(s) **Class Size:** 4
