

Civil Engineering

Course Name

Buildings & Civils - Mining - Pathways in Mining Awareness

Course Description

The Pathways in Mining Awareness module forms part of the Mining Training Programme and is the second part of two modules dedicated to the awareness of mining hazards around the railway. Within this module, you will explore the Mining Manual and how it applies to specific groups of people. The management of mining hazards can be complex, but it is introduced here to show the various roles and responsibilities undertaken by Network Rail as part of the response to mining hazards when they are noted at the trackside.

Audience

- Mining Team - Route and Region Geotechnical Teams - Buildings & Civils Asset Management & Project Teams

Duration: 0.25 Day(s) **Class Size:**
