

Lineside Management

Course Name

Drainage & Lineside - Vegetation & Tree Inspection Level 2

Course Description

This face-to-face practical course covers vegetation inspection, tree inspection, and leaf fall inspection according to NR/L2/OTK/5201 standards. Participants will learn to identify vegetation, conduct inspections using various methods, apply safety principles, and communicate effectively. The course also covers tree hazard indicators and leaf fall inspection techniques, including species identification and factors impacting leaf adhesion. By completing this course, participants will gain practical knowledge in conducting inspections, identifying defects, managing risks, and promoting safety and environmental considerations, and be awarded Professional Competence Level 2 - Understanding.

Audience

Individuals responsible for off track maintenance or renewals involving trees and vegetation, including inspection tasks. Also, individuals who interact with those performing these tasks.

Duration: 2 Day(s) **Class Size:** 8

Competence Name Awarded

Vegetation Inspection Tree Inspection

Competence Awarded

VEG-I01, VEG-I02

Course Code

VEG-I01, VEG-I02

Prerequisite Name

Drainage & Lineside - Vegetation & Tree Inspection & Maintenance Level 1
Personal Track Safety

Prerequisite Short Code

OTK-V, PTS

Skills Assessment Scheme Regime**Course Type**

Face to Face - Personal Protective Equipment
