Lineside Management

Course Name

Drainage & Lineside - Boundary Measures Inspection & Maintenance Level 1

Course Description

The e-learning course provides an awareness of the key stages of the boundary lifecycle, relevant Network Rail standards, and the inspection and maintenance processes outlined in the Network Rail Boundary Measure Standard NR/02/OTK/5100. Participants will learn generic safety principles, different inspection methods, and maintenance techniques. By completing this course, participants will gain the relevant knowledge needed to conduct effective boundary inspections and maintenance in compliance with Network Rail standards.

Audience

Individuals involved in off-track maintenance and responsible for boundary measure inspection and maintenance as part of their daily work. Also, individuals who interact with those performing these tasks.

Duration: 0.25 Day(s) **Class Size:**

Competence Name Awarded

Boundary Inspection Boundary Maintenance

Competence Awarded

BAP-M01, BAP-I01

Course Code

BAP-M01, BAP-I01

Prerequisite Name

Prerequisite Short Code

Skills Assessment Scheme Regime

Course Type

Elearning
