

Infrastructure & Engineering

Course Name

City & Guilds 2377 - Portable Appliance Testing

Course Description

We recommend that delegates have an up to date copy of the IEE code of practice for In-service Inspection and Testing of Electrical Equipment.

The following elements are covered:

- Legislation
- Equipment classification
- Frequency of inspection
- Documentation and procedures
- Competence to test
- Instrumentation
- Practical inspection and testing
- Use of a variety of common test instruments
- Recording and interpreting results

Plant 01 holders do not need to hold this competence and can conduct these tasks using Plant 01 following a familiarisation with the test equipment.

This course can be provided by any City & Guilds approved centre.

****Please note that a Scientific Calculator is required for this course****

Audience

This qualification is designed for those involved in the inspection and testing of electrical equipment and/or managing the process. Plant 01 holders do not need to hold this competence and can conduct these tasks using Plant 01 following a familiarisation with the test equipment. There are no pre-requisites for this course.
