

Lineside Management

Course Name

Drainage & Lineside - Vegetation & Tree Maintenance Level 2

Course Description

The face-to-face practical course teaches participants practical skills aligned with NR/L2/OTK/5201 standards. Participants will learn to select appropriate methods for vegetation maintenance, consider environmental impacts, and manage protected areas. The course covers maintenance of harmful species, intervention requirements, and effective communication skills. Topics include different maintenance methods, machinery usage, waste disposal, habitat protection, site management, and communication protocols. By completing this course, participants will gain practical knowledge in vegetation and tree maintenance, ensuring compliance with standards, environmental considerations, and effective communication throughout the process, and be awarded Professional Competence Level 2 - Understanding.

Audience

Individuals responsible for off track maintenance or renewals involving trees and vegetation, including maintenance tasks. Also, individuals who interact with those performing these tasks.

Duration: 2 Day(s) **Class Size:** 8

Competence Name Awarded

Vegetation Maintenance

Competence Awarded

VEG-M01

Course Code
