Lineside Management

Course Name

Drainage & Lineside - Vegetation Tactical Evaluation Level 2

Course Description

This face-to-face practical training course focuses on tactical evaluation in vegetation management. Participants will explore the purpose and triggers of tactical evaluations, learn effective risk management strategies, understand the decision-making process, and learn the importance of strong communication skills. This course also includes practical demonstrations on data analysis, collaboration, and presenting solutions. By the end of the course, participants will possess the necessary skills and knowledge to conduct thorough and effective tactical evaluations in vegetation management in line with Network Rail guidance. Recommended pre-learning for this course: Vegetation Inspection & Maintenance Level 1. It is also recommend that delegates familiarise themselves with the following tools before attending this training course: · StrEAMS, ARET, Geo-RiNM, Ellipse, Fault Management System. These systems will be referenced extensively throughout the course and will form part of the final practical assessment.

Audience

Individuals responsible for the tactical and/or strategic evaluation of vegetation and trees, including those responsible for prioritising environmental sustainability in accordance with Network Rail guidelines.

Duration: 2 Day(s) **Class Size:** 8
