Lineside Management

Course Name

Drainage & Lineside - Vegetation and Tree Management Level 2

Course Description

This face-to-face training course is designed to provide participants with an understanding of the skills and knowledge needed to effectively manage vegetation and trees. Throughout the course, participants will learn about the benefits of effective vegetation and tree management, explore the process of preparation for these activities and gain an understanding of the principles of responsible and effective vegetation and tree management. Practical demonstrations will be included to illustrate how to carry out these activities, providing participants with the necessary understanding to make informed decisions in high-pressure situations, in line with Network Rail standards. Recommended pre-learning to the joining instructions: Drainage & Lineside - Vegetation Inspection & Maintenance (L1). It is also recommended to familiarise yourself with the following tools before attending this training course: MyWork App, Ellipse and StrEAMS. These systems will be referenced extensively throughout the course and may form part of the final practical assessment.

Audience

Individuals responsible for managing trees and vegetation, ensuring compliance with Network Rail Standards. Also, individuals who interact with those performing these tasks or who utilise the outputs in their daily activities may be interested to gain a deeper understanding of this topic.

Duration: 2 Day(s) **Class Size:** 8
