

Lineside Management

Course Name

Drainage & Lineside - Boundary Measures Design & Construction Level 1

Course Description

This e-learning course covers the boundary measure lifecycle, different boundary measures and their uses, the design and construction process, boundary detail drawings, component specifications, and the importance of quality assurance. By completing this course, participants will gain an awareness of the knowledge to effectively design and construct boundary measures in compliance with Network Rail guidelines.

Recommended pre-learning for this course: Drainage & Lineside - Boundary Measures Inspection and Maintenance Level 1

Audience

Individuals responsible for the planning, design, and implementation of boundary measures in line with Network Rail standards.

Duration: 0.25 Day(s) **Class Size:**

Competence Name Awarded

Boundary Design Boundary Measure Construction

Competence Awarded

BAP-D01, BAP-C01

Course Code

BAP-D01, BAP-C01

Prerequisite Name

Drainage & Lineside - Boundary Measures Inspection & Maintenance Level 1

Prerequisite Short Code

OTK

Skills Assessment Scheme Regime**Course Type**

Elearning

Download Date: 30/1/2025
