

Railway Operations

Course Name

Signalling Appreciation

Course Description

This course provides an interactive overview of Network Rail Signalling.

Sessions will include looking at the history of signalling and an overview of Absolute and Track Circuit Block. Delegates will also learn about Safety Critical Communications, obstructions, trespassing, protection of personnel, signal failures, tabletop exercises and hands on signalling simulator practice.

Audience

Intended for audiences interested in learning more about signalling such as future Initial Signalling Training (IST) attendees or those from Train Operating companies.

Duration: 3 Day(s) **Class Size:** 8
