

# Lineside Management

**Course Name**

Drainage & Lineside - Boundary Measures Maintenance Level 2

**Course Description**

This face-to-face practical course focuses on conducting boundary measures maintenance in accordance with NR/L2/OTK/5100 standards. Participants will learn about the associated risks, different classes and types of boundary measures, and how to conduct maintenance following the specified standards. The course emphasises the importance of clear communication skills when interacting with colleagues during boundary maintenance, using the specified terminology. By completing this course, participants will gain the knowledge and skills needed to effectively conduct boundary measures maintenance, ensuring compliance with the standards and promoting clear communication in the process, and be awarded Professional Competence Level 2 - Understanding.

**Audience**

Individuals involved in off-track maintenance and responsible for boundary measure maintenance as part of their daily work. Also, individuals who interact with those performing these tasks.

**Duration:** 2 Day(s) **Class Size:** 8
