Lineside Management

Course Name

Drainage & Lineside - Boundary Measures Rapid Response (L1 & L2)

Course Description

This e-learning course focuses on boundary measures, access facilities, and pathways rapid response. Participants will gain a thorough understanding of the Network Rail Standards related to rapid response in these areas. They will learn the steps to take during a rapid response request, both in terms of immediate actions and on-site procedures. The course also covers the steps to close a rapid response activity and follow-up actions. Additionally, participants will explore the decision-making process, considerations for incursion/trespass activities, and the criteria for success in boundary measures, access facilities, and pathways rapid response activities. By completing this course, learners will acquire the knowledge and skills needed to effectively respond to rapid response situations in these specific areas in line with Network Rail guidelines.

Recommended pre-learning for this course: Drainage & Lineside - Boundary Measures Inspection and Maintenance Level 1.

Audience

Individuals responsible for responding to rapid response requests relating to boundary measures, including those responsible for any follow up actions.

Duration: 0.25 Day(s) **Class Size:**

Competence Name Awarded

Boundary/Access Facility/Pathway Rapid Response

Competence Awarded

BAP-R01

Course Code

BAP-R01

Prerequisite Name

Drainage & Lineside - Boundary Measures Inspection & Maintenance Level 1

Prerequisite Short Code

OTK

Skills Assessment Scheme Regime
