

Technical & Vocational

Course Name

BOC - BTEC Inspection of Oxy-Fuel Gas Equipment

Course Description

To make delegates aware of the roles and responsibilities associated with the safe inspection and testing of oxy-fuel gas cutting, preheating and welding equipment and to give them the knowledge and skills necessary to enable them to test components and record information in line with current standards.

Audience

Personnel who operate oxy-fuel gas equipment and are required to test the equipment on the railway infrastructure. Candidates must have previous experience in the safe use and operation of oxy-fuel gas equipment.

Duration: 5 Day(s) **Class Size:** 3
