

Railway Operations

Course Name

Operating the Elizabeth Line

Course Description

The Elizabeth line is a brand-new railway line integrating new technology with old, connecting Anglia route in the East with Western route in the West, running underneath London which is maintained by a new infrastructure manager. This eLearning course aims to provide those working in Operations, Maintenance, and teams associated with the Elizabeth Line with an overview of the route, technology and trains that operate on this part of our infrastructure.

Audience

This course is intended for those working in Operations, Maintenance, and all teams associated with the Elizabeth line.
