

# Telecoms Engineering

**Course Name**

QATS Railway and Signalling Quality Analysis and Troubleshooting

**Course Description**

The QATS Railway and Signalling Quality Analysis and Troubleshooting training course will provide delegates with the necessary knowledge and skills to carry out quality analysis and troubleshooting activities related to ERTMS railway signalling systems.

The training course aims to equip participants with the ability to identify and diagnose faults, assess and analyse system performance, and implement corrective measures to ensure the safe and efficient operation of railway signalling systems.

**Audience**

Employees who analyse ERTMS Signalling and/or Telecoms Data.

**Duration:** 3 Day(s) **Class Size:** 6

**Competence Name Awarded**

Railway and Signalling Quality Analysis and Troubleshooting
