

Signal Engineering

Course Name

RBC STME - Manage Signals

Course Description

This course is designed to train all STME/ASTMEs and individuals identified for progression into those roles. It is designed to develop a person's knowledge, understanding technical skills and management skills. It is therefore particularly suited to persons required to prove their capability in these areas.

The course consists of 3 technical modules:

Failure & Incident Testing (SFI) Level 3

Signal Sighting

Managing Functionally Equivalent Design

The Leadership and Non-technical skills relating to the role are explored in scenario based discussions.

Audience

All STME/ASTME Individuals identified for progression into those roles.

Duration: 3 Day(s) **Class Size:** 10
