

Signal Engineering

Course Name

RBC STSM - Manage Health & Safety

Course Description

This course is designed to train all STSM, Section Supervisors and individuals identified for progression into those roles. It is designed to develop a person's knowledge, understanding technical skills and management skills. It is therefore particularly suited to persons required to prove their capability in these areas. The course consists of technical modules:

Manage Health and Safety activities within the scope of their responsibilities

Apply the best practice approach for meeting the requirement for each piece of legislation

Implement the correct mitigating actions whenever required and create a pro-active, safety driven approach to all actions within their teams

Audience

All STSM/Section Supervisors and Individuals identified for progression into those roles.

Duration: 3 Days Day(s) **Class Size:** 10
