Professional Development

Course Name

Railway Software Safety as a Client: Practitioners Masterclass (UK)

Course Description

Network Rail has produced a Rail Industry standard (RIZ 0745 CCS) following an ORR recommendation after the Cambrian incident. The ORR recommendation identified the need for an industry wide standard for the assurance of safety critical software, that is mandatory to all organisations within the rail industry including Network Rail competence.

Audience

Training is appropriate for: Project Engineers Project Managers Sponsors Clients who are involved in the purchase, development or implementation of anything that contains safety critical software

Duration: 1 Day(s) **Class Size:** 1
