

Electrical and Mechanical Modules (BEng)

Module of the BEng in Railway Engineering

Course Type

Face to Face

Electrical and Mechanical Modules (Fd)

Module of the Foundation Degree in Railway Engineering Course

Course Type

Face to Face

Installation and Maintenance of Rail Mounted Mechanical Treadles

Course Type

Elearning

Mechanical & Electrical Interlocking Basic Principles

This course introduces you to mechanical and electrical interlocking, and consists of four eLearning modules and digital twin activities.

Course Type

Elearning

Mechanical Gates

Course Type

Elearning

Mechanical Interlocking FLMF

To develop the delegates understanding of maintenance, faulting repairing and testing procedures that apply to Mechanical Interlockings.

Course Type

Face to Face

Mechanical Signalling Maintenance

To develop understanding of maintenance, faulting repairing or testing procedures that apply to mechanical signal engineering equipment.

Course Type

Face to Face

SMTM Mechanical Locking Practical Assessment

Course Type

Face to Face
