

SSOWPs 2.5 Briefing Video

The SSoWPs system has been upgraded to version 2.5 to allow us to successfully comply with Revised Standard 019 – Safety of People at work on or near the line. This video briefing will help you to understand the key changes and enhancements to the system, how to use the new version, and how this will improve safety for your colleagues. This briefing will take roughly 30 minutes to complete. You need to watch the video in full to register your completion.
